ABOUT ME

I've always had a great passion for the art of creating and design. I am pursuing architecture as a passion because I see it as an opportunity where i can express myself in a manner that adds value to society from small projects to commercial. My goal is to make a visible impact on the surroundings and community to achieve a worthwhile and rewarding career. The interest in architecture comes from a curiosity for art and engineering to create something unique.

I would like to describe myself as, Confident, optimistic, enthusiastic and creative. I'm always willing to adapt myself adapt to an exciting career where the job would challenge me to bring out the best of my abilities. I believe that my suite of skills, knowledge and commitment to architecture coupled with a desire to learn makes me an ideal candidate for your firm. I would like to use my knowledge to create, enhance and extend your team
